

Name: _____

Long Division Practice: 4x4

Directions: Use long division to solve each of the following. Be sure to include the value of the remainder, even if it is zero.

$$11 \overline{) 29,346}$$

$$21 \overline{) 91,406}$$

$$78 \overline{) 36,114}$$

$$96 \overline{) 25,671}$$

ANSWER KEY

$$\begin{array}{r} 2,667 \text{ R}9 \\ 11 \overline{) 29,346} \end{array}$$

$$\begin{array}{r} 4,352 \text{ R}14 \\ 21 \overline{) 91,406} \end{array}$$

$$\begin{array}{r} 463 \text{ R}0 \\ 78 \overline{) 36,114} \end{array}$$

$$\begin{array}{r} 267 \text{ R}39 \\ 96 \overline{) 25,671} \end{array}$$
